CATALOGUE DE L'ELECTRONIQUE POUR LES INGENIEURS
DER PRODUKTKATALOG FÜR ELEKTRONIKER
ELECTRONIC ENGINEERS CATALOGUE

The 1978 edition is out...and the response is in...
IMMEDIATE AND OVERWHELMING

ACCEPTANCE

The ELECTRONIC ENGINEERS CATALOGUE is the only comprehensive, trilingual catalogue/source-directory of electronic products available to—and from—Western Europe.

It is divided into three distinct sections: 1. **The Product Index and Directory,** which lists more than 3,000 product headings & cross-references alphabetically in English with their French and German equivalents. 2. **The Manufacturers' Catalogue Section,** which is a compilation of Manufacturers' Catalogues in alphabetical order. 3. **The Manufacturers' Sales Offices and Trade Marks Directory,** which alphabetically includes country, address, telex or TWX numbers of the Manufacturers' main and local sales offices and/or agents.

The ELECTRONIC ENGINEERS CATALOGUE offers U.S. manufacturers the most cost-efficient method of distributing their catalogue data to **25,000** electronic engineers and buyers throughout Western Europe. It represents the carefully conceived application of the time-proven **eem** "cataloging" concept to the elusive European marketplace.

ALLEN AVIONICS, INC. cont'd

Advertisement

Allen Avionics manufactures passive delay lines, filters, attenuators and passive networks. Fast delivery on LC filters to customers specifications. The industries sharpest lowpass and highpass filters are manufactured by us. We specialize in linear phase and delay equalized lowpass and bandpass filters. Allen Avionics is the only manufacturer to build lumped delay lines having time delay to rise time ratios of up to 300/1. We are the sole supplier of the Spiradel delay line which is the highest quality Distributed delay line ever manufactured.

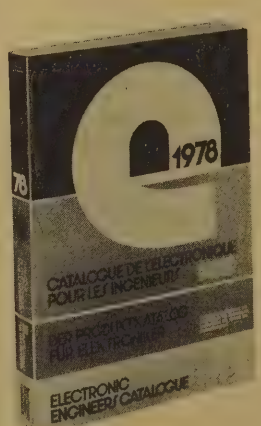
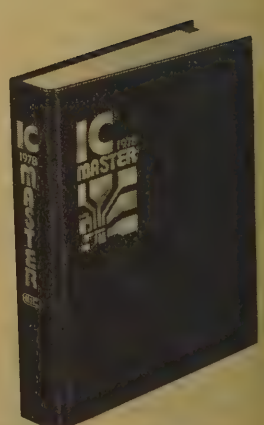
eem/ELECTRONIC ENGINEERS MASTER CATALOG —

The "blue-ribbon" catalog/directory that has become "the standard of the industry" for electronic engineers, buyers and specifiers.



ELECTRONIC ENGINEERS CATALOGUE —

The new catalogue/directory of electronic products available to and from Western Europe and the United Kingdom. Designed especially for the European electronics engineer.



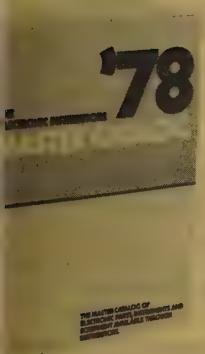
IC MASTER AND THE UPDATES —

The only complete single-source tory including all IC devices ma tured in the United States. U three times yearly with accum supplements.

our stuff...

ataloging, 21 editions of eem

echnical Publications



nic Distributors
R CATALOG —

national catalog designed
ely for distributors and their
rs featuring electronic parts,
ents and equipment.

ELECTRONIC PRODUCTS MAGAZINE —

The products magazine . . . A 100% product-oriented magazine including hundreds of new products and special features every month.

eem FILE SYSTEM —

The only filing system designed especially for the electronics engineer. Instant retrieval and organization of data sheets and catalogs.

UNITED COST AND PRICING SERVICES —

The electronic distributors' proven method of being up to the minute on his cost and selling prices.

UTP CUSTOM CATALOGS —

The Cadillac of individualized catalogs for the electronic parts distributor, featuring solely his lines and services.

DIRECTIONAL COUPLERS, COAXIAL AND WAVEGUIDE, designed to produce DC or RF outputs sensitive to forward and reflected main line RF power. Your most exacting "SPECIAL" RF power measuring requirements can, in most cases, be satisfied by but a slight modification of one of our hundreds of standard models. Meet MIL Specs.

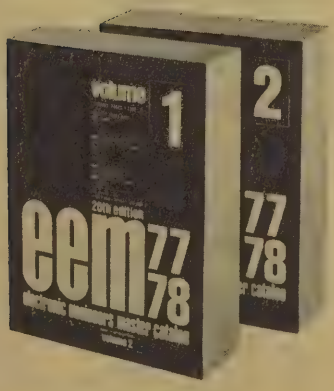
United

Electronics Division



eem/ELECTRONIC ENGINEERS MASTER CATALOG —

The "blue-ribbon" catalog/directory that has become "the standard of the industry" for electronic engineers, buyers and specifiers.

ELECTRONIC ENGINEERS CATALOGUE —

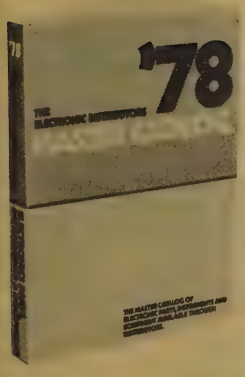
The new catalogue/directory of electronic products available to and from Western Europe and the United Kingdom. Designed especially for the European electronics engineer.

IC MASTER AND THE UPDATES —

The only complete single-source direc tory including all IC devices manufac tured in the United States. Updated three times yearly with accumulative supplements.

our stuff...

cataloging, 21 editions of eem Technical Publications



lectronic Distributors
ASTER CATALOG —

he only national catalog designed xclusively for distributors and their stomers featuring electronic parts, strurnents and equipment.

ELECTRONIC PRODUCTS MAGAZINE —

The products magazine . . . A 100% product-oriented magazine including hundreds of new products and special features every month.

eem FILE SYSTEM —

The only filing system designed especially for the electronics engineer. Instant retrieval and organization of data sheets and catalogs.

UNITED COST AND PRICING SERVICES —

The electronic distributors' proven method of being up to the minute on his cost and selling prices.

UTP CUSTOM CATALOGS —

The Cadillac of individualized catalogs for the electronic parts distributor, featuring solely his lines and services.

Advertisement

HICO-Maxon miniature DC motors. Permanent magnet ironless rotor design. High quality commutator with up to 13 bars and precious metal brushes.

Standard sizes from 12mm to 32mm diameter and voltages from 3V to 24V. Precision gearheads also available.

Fast response and low starting voltage. Highest efficiency and ultra smooth torque. Linear voltage/speed/torque characteristics.

Contact our applications engineers.

DIGITAL OR MICROPROCESSOR-Based "MICRO" LOGIC MODULES. Largest, most flexible selection in the U.S., both commercial and mil-grade models, all interchangeable. "Abacus MicroModules"™ are small (2 x 3 x 1/32 in.); available in over 350 logic types; employ exceptionally reliable, rugged 52-position miltype blade and socket/pin connectors; and mount in supplied mini card cages for wire wrap into complete systems. One year warranty. Design aids, tools, complete documentation furnished. Ask for MicroModules literature from Abacus Div., Dept. EM8, INFORMATION CONTROL CORP, 9610 Bellanca Ave., Los Angeles, CA 90045. Phone: (213)641-8520. TWX 910-328-7234.

FLEXIBLE-DESIGN MICROCOMPUTER SYSTEMS in assembled, or "kit" form; including all hardware, software; built around programmable "Abacus MicroModules",™ employing either 8080 or Z80 chips. Three basic "starter" or full OEM "Abacus MicroSystems"™ available in off-the-shelf designs; but concept allows nearly unlimited variety of system configurations efficiently tailored just for given application. Are supported by matching microdevelopment system to enable engineer to implement and check out hardware design and programming for his microcomputer. Request MicroSystems literature from the Abacus Div., Dept. EM8, INFORMATION CONTROL CORP., 9610 Bellanca Ave., Los Angeles, CA 90045. Phone (213) 641-8520. TWX 910-328-7234.

INFORMATION CONTROL CORP. cont'd

Advertisement

LIGHT PENS. Largest standard line in the U.S., for any vector or alphanumeric CRT interactive graphics application. All solid state; "touch-sense" actuated. Response down to 300 nsec or less. Comfortably sized for easy use, as small as 1/2 by 6 inches, and 2-oz. light. Many standard OEM designs at sensible prices. Commercial or military models. Also finder beam versions. Request design literature and specifications from Light Pen Div., Dept. EM7, INFORMATION CONTROL CORP., 9610 Bellanca Ave., Los Angeles, CA 90045. Phone: (213)641-8520. TWX 910-328-7234.

MicroCommand System™. A universal, user-oriented Z80-based microcomputer development system. Exclusive features that greatly simplify the designer's task are: interactive software package that supports Z80, 8080, or 8085 development without changing the CPU; an In-Circuit-Debugger that employs a Virtual Processor Emulation concept and may be run in Single-step, Trace, or Real Time mode. It employs hardware or software breakpoints, or operator interrupt; also providing Memory Mapping and Emulation Save/Restore. MCS is the only system to include the "Touch Sense" light pen featuring unique, menu-oriented software. With a supporting family of MicroWare Logic Modules, OEM micro- computers and associated mounting hardware, ICC will take you from concept through production with one vendor. Request MicroCommand System literature from the Microcomputer Div., Dept EM8, Information Control Corp., 9610 Bellanca Ave., Los Angeles, CA 90045. Phone: (213) 641-8520; TWX 910-328-7234.

Metron Circuit Board Comparator permits optical inspection of boards to 16" x 16". Magnified scanning areas or production and "master" boards appear simultaneously on lighted screen as mirror images flowing out of center dividing line. Errors are marked as seen on screen. For literature, write Metron Optics, Inc. Box 690, Solana Beach, CA 92075. 714/755-4477.

Advertisement

We specialize in triggering systems for Lasers and Triggered spark gaps. Using latest solid state techniques, our PT-00 series accept TTL level in and output up to 600V. into 50 Ohms, repetition rate from 1 shot to 10kHz with ps. jitter and nanosecond delay. The PT-55 Pulsers will trigger from 250V. output range from 30-60kV. Pos. or Neg. All with sub. ns. rise time.

Advertisement

Ultra low noise (IDB typical) transistor amplifiers for use with infrared detectors and electrical transducers; voltage mode, current mode and automatic bias control. Standard models are available to match all infrared detectors and transducers produced in the U.S. and Europe. Multi-Element amplifier arrays are available in all operating modes with hybrid modules containing up to 100 signal channels.
Standard secondary function amplifiers such as; logarythmic, AGC, video, RF, etc., are also available from stock.
